

WRC 2022 WORKSHOPS

Over the 4 days of the WRC2022, the host, together with the WRO managed to organize workshops with different topics.

As one of the aims of the WRO is the exchange of experiences, the organizers would be very glad if as much participants from the different participating countries, the hydraulic equipment manufacturers, tool manufacturers, PPE providers, officials from all the parent organizations and each other person committed in the rescue service would attend the offered workshops.

Presentations and discussion, no registration required

For the presentations, the participants will be guided to the auditory. Meeting point situated next to the entrance of the cantina 10 minutes prior to the beginning of the presentation.
